

J.S. Bach - Church Cantatas BWV 73

Introduction & updates at melvunger.com.

Form: Chorus/recit (T/B/S) - Aria (T) - Recit (B) - Aria (B) - Chorale. Bach often used chiasmic (x-shaped/symmetrical) forms, in which center movements (where the mirror image begins) often provide the crux of the matter. There antithetical elements meet or are paradoxically inverted (formal inversion reflects an aspect of reversal or turning in the text). See side note for Martin Petzoldt's diagram. The cantata's point of departure derives from the day's Gospel reading, in which Jesus agrees to heal a leper. The focus is not on the miracle itself, however, but on alignment with God's will, even in suffering ("A leper came to him and knelt before him, saying, 'Lord, if you will, you can make me clean.' The libretto is reminiscent of Jesus' prayer in the Garden of Gethsemane: Mk. 14:35-36. [Jesus] said, "Abba, Father, all things are possible to thee; remove this cup from me; yet not what I will, but what thou wilt" (Mark 14:36). Submitting to God's will appears to have been an important life principle for Bach. See 2 side notes. Eric Chafe sees the tonal descent of the movements as symbolic of this principle (see side note).

Cantata No. 73

Martin Petzoldt suggests that the cantata's structure and choice of soloists allows the 3 characters in the Gospel reading to speak (T = the leper, B = the centurion, S = the centurion's sick servant). See "Bach Kommentar" 2:467

(Coro) Italianate concerto structure
73/1. (Allegro moderato $\text{♩} = 88$.)

Bassetto technique (removing continuo support) is often used by Bach to depict something heavenly, unearthly, incomprehensible, or without foundation.

Leitmotif: Horn (in later version, organ) with Vln I play first 4 notes of chorale melody in 8th notes ("Herr, wie du willst"), with Vln II, Vla, continuo.

Oboes play a circling figure in sweet parallel 3rds (for sweetness), derived from the chorale's opening interval, presented sequentially at higher intervals. As an example of "circulatio," the rhetorical figure may represent the circuitous paths of God's will. For more, see side note.

For Alfred Dürr's comments on the first movement, see side note.

Stanza 1 of 3 in 1582 hymn by Kaspar Bienenmann (1540-1591).

Martin Petzoldt observes that the third choral interjection is sung quite atonally in the middle of the unresolved part of the cadence, leaving the impression of a questioning character. See *Bach Kommentar* 2:479. It is as if the voices are affirming something that they do not understand.

This type of aria is called a "Devisenaria" (a term coined by Hugo Riemann) or "motto aria." After the ritornello, the singer presents the first phrase of the aria as a kind of motto. This is followed by a short instrumental bridge before the aria proper begins. The motto sets the tone (and the literary perspective) for the movement.

Dürr writes, "In the course of the movement the initial motive and its inversion alternate on several occasions. Its frequent modifications are, in the middle section, linked with a shaking figure which represents the word 'wanken' ('waver')." See *The Cantatas of J. S. Bach*, trans. by Richard Jones (Oxford: Oxford University Press, 2005), 203. The opening text paraphrases Psalm 51:12: "Restore to me the joy of thy salvation, and uphold me with a willing spirit" (Luther 1545: freudige Geist).

Konrad Küster argues that, by giving the melodic leadership role to the oboe from m. 7 on, Bach provided a prime example of the fact that he was not merely inserting the vocal line into an instrumental movement but that he conceived it as a model movement in which he could assign its components freely to the participating voices. See Konrad Küster, "Johann Sebastian Bach," 226, cited in Petzoldt, "Bach Kommentar" 2:470.

The system ends with a double bar line and a repeat sign, followed by the instruction 'Da Capo dal Segno.'

This is the central (pivot) movement in the cantata's chastic form: elements meet or are transformed by inverted (formal inversion reflects an aspect of reversal or turning in the text). Here the antithetical elements are natural human will and a will that has been transformed by God's Spirit.

This is the only movement where human will is the subject.

73/4. **Aria.** • God's sovereign will accepted; acceptance of death (73/4).

Since the aria provides the actual prayer referenced in the recitativo, it begins without instrumental introduction. Like movement 1, it is unified by the motto "Lord as thou wilt." However, while the motto was musically inflexible in movement 1, it is malleable here, perhaps suggesting flexibility with regards to God's will. In its initial form, the motive is identical to the opening of "Bist du bei mir," a song by Gottfried Heinrich Stölzel, which Anna Magdalena Bach copied in her 1725 Notebook.

Martin Petzoldt suggests that the Trinitarian text of the chorale functions as a catechismal statement and mirrors the 3-part structure of the opening chorus (3 recitative insertions trope the chorale text of no. 1). The 3 persons of the Trinity are mentioned with their individual roles in the outward workings of the Trinity: the will of the Father as creator, the fullness of goodness and grace in the Son, and the governance of humans by faith. All of these aspects are reflected in the previous movements, making this chorale stanza an apt choice for the conclusion. See "Bach Kommentar" 2:466, 473.

Compare Bach's elaborate setting of this tune in BWV 11/9.

• God's will is to extend grace to us in Christ (73/5). Ninth and final stanza of "Von Gott will ich nicht lassen," a 1563 hymn by Ludwig Helmbold (1532–1598).
